I am a passionate Front End Developer with a background in tool and die making, bringing a unique blend of precision engineering skills and coding expertise to my work. With a strong attention to detail and a focus on user-centric design, I strive to create captivating and seamless digital experiences. I am committed to continuous learning, staying up to date with industry trends, and leveraging my diverse background to deliver exceptional results.

🧠 Skills

Front-End Development

React.js
HTML5
CSS3
Next.js
Redux
Tailwind
Sass

Back-End Development

Node.js
Express.js
MongoDB

Other skills

Version Control: Git
Consuming and Integrating Third-Party APIs
Authentication and Authorization: JSON Web Tokens (JWT), OAuth
Problem Solving and Debugging
Communication and Collaboration
Continuous Learning

📁 Projects

Watch Crafters, React Project, E-commerce 📄

This project is a store that allows users to register accounts, log in and out, make payments, and join the newsletter. Users can add items to their shopping cart and proceed to payment using a fake credit card for testing purposes. The site includes features such as product filtering and sorting, with stock numbers linked to each item to prevent over-purchasing. The technologies used in this project include **Axios, Redux, Dotenv, React, React-Icons, React-Router-Dom, Stripe, Styled-Components, and Airtable.**

Whispered Lines, Full Stack Project 📄

This is a full-stack web application using **Next.js** and leveraged the power of **Tailwind CSS** for styling. The project allowed users to write and share poems, with seamless login and registration through Google account authentication using **Next Auth**. The application featured a feed section where both logged-in and non-logged-in users could browse poems posted by others and access profile details. Authenticated users gained additional privileges, enabling them to create, update, and delete their own poems. **MongoDB and Mongoose** were utilized for efficient data storage and retrieval.

Education

Diploma in Tool and Die Making, NTTF [↗](#)

06/2008 – 06/2012
India

Mechanical Technician Tool and die Making, Sheridan College [↗](#)

01/2015 – 05/2017
Ontario, Canada

Licenses and Certificates

Tool Maker- Red Seal Licesnse,
Ontario College of Trades

Python For Everybody,
University of Michigan [↗](#)

Portfolio
